WILL HE HUNT THE B'AR?

Not long ago Senator Kefauver of Tennessee said flatly he wasn't a candidate for the 1956 Democratic presidential nomination. Now he's not so sure.

"I may change my mind," he says today. "Anyone who says he wouldn't like to be president of this great country is just kidding."

We don't know just what factors are churning around dances, in the senator's mind. Maybe he's waiting to see just how long the Davy Crockett boom will last.

Kefauver did pretty well in a coonskin cap in 1952. to dance, make life very difficult But this particular kind of fur headpiece has taken on a whole new meaning since the box-top, sandpile set got interested in Davy.

Since TV came into its own, the kids and their likes and dislikes seem to throw more weight than ever in the family circle. That coon cap might be a gold mine of votes.

You can't easily make the White House on anybody else's coattails. Possibly you can ride in on the tail of a raccoon.

SCIENCE, ILLUSTRATED-It happened at rural Obee School near Hutchinson, Kans. Science teacher William Turner suggested that students bring animals to class so they could be discussed. Opportunity presented itself to Marjorie Sutton, left, Reta Burkitt, center, and Kathleen Edwards. Outside the school and trying to get in was a big yellow cat. A tomcat, the girls thought. They brought it inside and put it in the cloakroom closet until time for science class. But when the girls went to get it, they found it was no tom-it was having ktitens. Here the girls look over mama cat and the four newcomers. EXCLUSIVE NEA PHOTO.

How to feel air-borne in one easy session

THE ride alone is enough to make you feel you're cloud-cruising when you're in a Buick.

Big soft-acting coil springs on all four wheels-a steadying full-length torque-tube - the pillowcushioning of low-pressure tubeless tires-and a long list of other great ride-engineering gems see to that.

But you're closer to flight travel than just in the way you ride when you're in the driver's seat of a new Buick. Variable Pitch Dynaflow sees to that.

For here you do what the pilot of a modern airliner does for quick take-off and climb, and for better gas mileage aloft - you vary the pitch of your driving propellers.

> Local Delivered Price of the 1955 Buick SPECIAL

Model 48 (illustrated) is Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains

such as: Heater & Defroster-\$81.70; Radio & Antenna-\$92.50.

2-Door, 6-Passenger Sedan

You do it quite simply—just by the way you press the gas pedal.

Press down in the normal way, and twenty propellerlike blades inside the Dynaflow unit hold at their high economy angle-to give you many more miles from every tankful of gas.

Press way down when the need arises—and you switch the pitch of those blades for high performance.

Instantly, you're off and away - at full-power acceleration in a safety-surge of forward momentum that's thrilling beyond all previous motoring experience.

What more can we say-except come try it!

It's a new kind of spectacular action-smooth to the absolute. It's yours with the virile might of Buick's record-powered V8 engines—and easily yours at great-buy prices that are sending Buick sales soaring to all-time best-seller highs.

Come in this week and be our guest at the wheel of the most sensational Buick yet.

* Variable Pitch Dynastow is the only Dynastow Buick builds today. It is standard on Roadmaster, optional at modest extra cost on other Series.

ONE'S A STINKER-Carolyn Ratcliffe, above, 16-year-old Hutchinson, Kans., miss has a problem Or rather, one of her seven baby skunks has. She raises pet skunks for sale. Her skunks raise their tails for fun. But one of them just isn't funny. He raises hob with the surrounding atmosphere.. Carolyn, as usual, had the babies deodorized. She says, "I KNOW they were all de-scented." But one little fellow proves how wrong she is. Fact is, one skunklet has B. O. Every once in a while he interjects his two scents worth. She's trying to determine the culprit. In the meantime, she has named her six charges and one supercharge Evening in Paris; My Sin; Petunia; Eau de Cologne; Sachet; Chlorophyl and Stinky, Jr. Mama skunk, of course, is named Stinky.

Paper Says Three **Turncoat Soldiers** Will Be Arrested

HONOLULU (A)-The Star-Bulletin said Wednesday the Army has ordered its area commanders to take into custody three former American soldiers the Communists say now have permission to leave Red China.

The three, dishonorably discharged when as prisoners of war, chose to remain in Red China after the Korean War. They are Cpl. Lewis W. Griggs, Jacksonville, Tex.; Cpl. Otho G. Bell, Olympia, Wash., and Cpl. William Cowart, Dalton, Ga.

Cowart, the Reds said, wants to go to Japan; the others to the

United States The Star-Bulletin quoted an unidentified Army source as saying the men may be picked up "whenever and wherever they come out of Red China.'

Under Article III of the Uniform Code of Military Justice they can be tried for offenses committed while subject to military law, the source said. .

There was no indication what charge if any would be filed against the men.

Claims Hikes In **Production Rates** Reason For Strike

DANVILLE, Ill. (#)-Officials of a striking union at the General Electric Ballast plant said Wednesday management had failed to live up to its agreement and termed the strike the result of rearrangement of standard rates of production

In a statement, Mrs. Ruth Warner, president of striking Local 997, AFL - UAW, and Mrs. Katie Mullins, bargaining committee chairman, said of the production

rates: "Most of them are being raised completely out of reason, taking away any possible chance of incentive earnings.'

The walkout by 800 employes represented by Local 997 started Monday. Some 60 members of the International Assn. of Machinists, not involved in the dispute, are providing plant maintenance during the strike.

C. P. Hayes, plant manager, said Tuesday the walkout is illegal and violates a contract which does not expire until Sept. 15.

Farm Bureau Head Can Still Milk Cow

GRAND RAPIDS, Mich. (A)-The head of the nation's largest farm organization rolled up his sleeves here Wednesday and proved in a milking contest he still hasn't lost the barnyard touch.

Charles Shuman, Chicago, head of the American Farm Bureau Federation, took top honors in the contest.

- Shuman won the Dairy Day contest with 4.1 pounds of milk per minute. Jim Morton, Hancok farmer and president of the Minnesota Farm Bureau, was second with 3.5.

WARM NEST-Not satisfied with the box the Melvin Dunkin family of Kiowa, Kans., fixed up for her when time was approaching for her to have her kittens, their Siamese found a better one-with radiant heating. The door to the family's clothes dryer was open and the next thing the Dunkins knew the pet had installed herself comfortably, awaiting the big moment. EXCLUSIVE NEA PHOTO

JUST CHECKING-Sixteen-year-old John Staib, center, has his own car, but he also has a complaint. The Lockhaven, Pa., youth says police stop him about three times a week to make sure he's old enough to drive. Roy Mayers, left, and Pete Witmeyer service the car, which John bought with earnings from a part-time job
